

Compressed Air Systems Reciprocating Compressors

5-7.5 HP Basic Series

- A ASME/CRN 200 psi MWP air receiver
- B Fork slots-for easy lifting and install
- C Easy to view oil sight gauge
- D OSHA belt guard
- E Centrifugal unloader - to unload head pressure to prevent the compressor starting under a load
- F Cast iron inner cooler-no flimsy copper pipe to insure day in day out operation
- G Easy to access valves - access the compressor valves without removing the compressor head
- H High temperature stainless steel discharge line.
- I ASME/CRN safety valves
- J Industrial grade electric drive motor
- K Phase protection motor starter
- L Industrial grade operational pressure switch
- M Easy to read air receiver gauge
- N 2-piece tank design

No start up kits needed for operation (Units ship factory filled)

Compressed Air Systems

Simplicity. It's What We Do.
