Compressed Air Systems utility compressor packages can be manufactured in a variety of ways. All packages can be built open or enclosed frame, with low or high ambient kits, and have the option for trailer mounting. Every diesel utility package is built with TIER 4 final engines and high quality components. Unlike other units with carbon fiber or fiberglass covers, our packages use steel frames and sides designed for durability and long life.

## Engine Driven Rotary Screw Compressor/Generator Combination Units

### Basic Compressor Features

- Tier 4 certified diesel Drive engine
- Heavy duty industrial rotary screw airend
- Industrial grade generator
- High strength reinforced steel frame
- Air after cooler for 15 degree approach temperature
- Engine vibration isolation mounts
- Fuel tank mounted
- Engine battery mounted and wired
- Spin on compressor oil filter
- Spin on compressor separator

- Vibration reduction compressor drive coupling

- Easy to operate compressor control panel

### Options

- Industrial grade gasoline drive engine
- Industrial grade natural gas drive engine
- Enclosure
- High ambient cooling package
- Low ambient heating package
- Deep cycle marine grade battery

### 40 CFM 20 KW Diesel Compressor/Generator

40 cfm @ 150 psi  
20 kw Generator

Model Number  
**RS40-20DIES**

### 40 CFM 40 KW Diesel Compressor/Generator

40 cfm @ 150 psi  
40 kw Generator

Model Number  
**RS40-40DIES**

### 75 CFM 20 KW Diesel Compressor/Generator

75 cfm @ 150 psi  
20 kw Generator

Model Number  
**RS75-20DIES**

### 75 CFM 40 KW Diesel Compressor/Generator

40 cfm @ 150 psi  
20 kw Generator

Model Number  
**RS75-40DIES**

## AirShok Compressor/Generator

130 cfm @ 150 psi  
10,000 kw Generator

### Options

- 400 AMP Welder
- Trailer
- Hose reel(s)
- Air cooler
- Air filtration

Model	cfm @ 150 psi	Engine HP	Engine Start	Length	Width	Height	Generator	Welder	Engine
<b>RS260DEC30-GWE</b>	40	26	Electric	48	36	48	5000	240A	Kohler Diesel
<b>RS510DEC-GWE</b>	120	57	Electric	77	45	52	10000	400A	Kohler Diesel

Unit with drive engines larger than 14hp or 440CC require and auxiliary fuel tank  
Pictures for reference some package appearance may vary from image

# Enclosed Engine Driven Rotary Screw Compressors

## Features

- Industrial grade rotary screw airend
- Industrial grade drive engine
- Quick service compressor filters
- Electric start drive engine
- High oil temperature shut down
- High air temperature shut down
- Low engine oil shutdown
- Engine idle control to meet air demand
- 12 Volt compressor air & oil cooler pack\*
- JIC quick connect air & oil lines
- Vibration mounting pads
- Fuel cell
- Battery and battery box
- Air cooled aftercooler

## Options

- Cold weather heating package
- High ambient temperature cooling package
- 4 or 30 gallon air storage tank
- Drive engine control extension
- Compressed air regulator control pack
- Cover color change

### Diesel Compressor

80 cfm @ 100 psi  
72 cfm @ 150 psi

Model Number  
**RS280GEC-ENC**

### Diesel Compressor

140 cfm @ 100 psi  
120 cfm @ 150 psi

Model Number  
**RS350DEC-ENC**

### Diesel Compressor

195 cfm @ 100 psi  
180 cfm @ 150 psi

Model Number  
**RS50DEC-ENC**

### Diesel Compressor

270 cfm @ 100 psi  
240 cfm @ 150 psi

Model Number  
**RS70DEC-ENC**

Model	CFM@100PSI	CFM@150PSI	Engine Brand	Length	Width	Height
RS280GEC-ENC	80	70	Kohler	46	20	32
RS350DEC-ENC	140	120	Kohler Diesel	60	38	38
RS50DEC-ENC	195	180	Kohler Diesel	60	38	38
RS70DEC-ENC	270	240	Kohler Diesel	80	48	44

\* 12 Volt control voltage connection to be supplied by vehicle/equipment compressor is mounted to.  
Dimensions are representatives of package dimensions not total space required for mounting.
